Reflections Med Spa is focused on improving the health and appearance of their clients. That's why so many men choose to undergo photorejuvenation – a treatment made to banish lines and wrinkles, eliminate red or brown spots, diminish the appearance of pigmented lesions, reduce the signs of rosacea, tighten and firm aging skin, and reduce the appearance of spider veins. Reflections Med Spa offers the breakthrough technology of IPL – Intense Pulse Light treatment which will rejuvenate the look and feel of the skin.

The Screamin Peach is a funky, fun and modern premier waxing studio located right here in Fort Collins. Jen Eichhorn, owner of The Screamin Peach, says that the atmosphere has more of a city and industrial feel to it. While waxing may have the misconception of being a woman's service, 25% of clientele at The Screamin Peach are male. "You name it, they wax it," says Eichhorn. Men enjoy the advantages of a hairless back, stomach, arms, legs and other areas as the special wax used leaves their skin looking and feeling smooth. Hair regrowth is guaranteed to look lighter and less noticeable than it is after other methods of hair removal such as shaving. So come in to The Screamin Peach and get ready to show off your hot new body.

Unwanted facial and body hair may leave many men turning to laser hair removal. The Harmony Laser Center specializes in laser hair removal allowing for a quick and gentle procedure that will leave your skin hairless and smooth. Although more than one session is needed, it has been clinically proven that after having laser treatment hairs will be eliminated or become thinner and finer. The Harmony Laser Center provides this procedure to many men – ending the need for razors and shaving cream and leaving them with a newly found confidence.
